

Medical Policy Regarding Medical Insurance Billing

This document confirms that our practice primarily provides and bills for dental services under dental insurance plans.

We understand that certain procedures performed in a dental setting may qualify for medical insurance billing. However, it is the policy of this office that:

- We will not bill medical insurance for services rendered unless the dental carrier requires medical billing prior to processing the claim, or
- The procedure clearly meets medical necessity criteria and requires medical submission for proper adjudication.

We acknowledge and agree that:

1. Dental insurance will be billed as primary for all eligible services.
2. Medical insurance claims will only be submitted when required by the dental carrier or when clinically necessary.
3. We understand that failure to follow payer guidelines could result in claim denials, coordination of benefits issues, or potential network compliance concerns.
4. Any exceptions to this policy will be documented in the patient's chart with clear justification.

This policy is effective as of: _____
